ELEMENTARY SCHOOL

Why Project Based Learning (PBL)?

Because it's a fun and engaging learning experience that students will enjoy as well as develop deeper learning competencies required for success in college, career, and civic life.

This hands-on training will take you through the PBL process step-by-step and show you how it can be implemented across all grade levels and subject areas in an effective and enjoyable way.

MIDDLE SCHOOL

Innovation in Program Design, Clubs and Activities

Let's look at your current program, clubs, and action-based activities for student engagement. Come ready to explore where conversations about program design, clubs and activities collide to spark innovation in quality learning.

Learn how clubs provide students with channels to address issues and build skills most relevant to them and offer opportunities to further develop their leadership skills while making connections that complement classroom activities.
